

# Slim DVD±RW Drive with LightScribe

Design by F.A. Porsche

**8x DVD±RW  
4x Double Layer**

## Store Up To 8.5GB\* On One Disc

With double layer DVD recording technology, the LaCie Slim DVD±RW Drive with LightScribe, Design by F.A. Porsche can be used to store nearly twice as much data as before. With up to 8.5GB of space on a single-sided, double layer DVD disc, save up to 16 hours of VHS video, 4 hours of personal, high-quality DVD video or up to 8.5GB of important data. Large-capacity, double layer DVD media is also ideal for backing up computer systems or saving thousands of MP3s.

## LightScribe Disc Labeling

This drive is equipped with LightScribe—an innovative technology that allows you to burn silkscreen-quality labels directly onto CDs and DVDs with a laser instead of a printer. LightScribe uses a combination of your CD/DVD drive, specially coated discs, and enhanced disc-burning software to produce precise, professional labels. The result is an impressive iridescent image composed of art, text, or photos of your own creation.

## Broad CD And DVD Compatibility

Conveniently compatible with DVD+R/RW and DVD-R/RW media and virtually all DVD players, the LaCie Slim DVD±RW Drive with LightScribe, Design by F.A. Porsche lets you choose the format you'd like to use. With the ability to store digital data on DVD or CD media, this all-in-one drive accommodates a variety of multimedia jobs. This rewritable drive can be connected to any PC with USB. Write to DVD-R/RW, DVD+R/RW, CD-R/RW and DVD±R Double Layer media.

## Full-Featured Software Suite

An easy-to-use interface allows you to piece together Hollywood-style DVD movies in a matter of minutes complete with menus, thumbnails and backgrounds for a totally customized DVD. This drive comes with Easy Media Creator Suite 9 DVD/CD copying software, which includes LightScribe labeling software as well as CinePlayer 3.5 playback software for Windows users.

- Mobile: thin, lightweight and compact design
