

# LaCie Biggest FW800

1TB · 2TB

## RAID Security, Speed & Power

### Optimum Storage Capacity

The LaCie Biggest FW800 introduces a new level of data storage with an astounding capacity of up to 2 terabytes (TB) combined with RAID technology. The finest choice in flexibility, the LaCie Biggest FW800 comes with SATA disks at 250GB or 500GB each for a maximum capacity of up to 2TB. With USB 2.0 and FireWire 800 interface connections, it is compatible with both PC and Mac operating systems.

### Speedy & Easy To Use

Its high transfer rates make the Biggest FW800 well suited for audio/video and creative professionals who require a quick path to powerful data storage and retrieval. Ideal for saving hefty files, protecting databases or working directly on the drive, it delivers high-capacity performance at an affordable price. The user-friendly LaCie Biggest FW800 allows for easy installation of four arrayed disks with no driver required.

### Superior RAID Security

A highly secure and fast RAID storage solution, the LaCie Biggest FW800 offers optimal processing potential by harnessing the power of four disks in one tower. The RAID system offers a perfect combination of total available capacity and the ability to rescue data in the event of a disk failure. The LaCie Biggest FW800 supports RAID levels 0, 0+1 and 5, as well as RAID 5+hot spare.

### Hot-Swappable Recovery

The LaCie Biggest FW800 allows for online hot swapping should a drive fail, with automatic data rebuilding to a new drive without downtime. With the added option of designating one of the drives a hot spare, the Biggest FW800 will automatically replace a faulty one. For additional protection, it will automatically react to a drive, fan or power failure and even shut down above a temperature of 55° C to preserve itself and your data.

RAID 0

RAID 0+1

RAID 5

RAID 5+spare

- Extremely large 2TB storage capacity
- Secure RAID technology
- User-friendly installation and operation
- Hot swapping and hot spare options

## Features

- 4 lockable, removable hard disks in drawers
- Supports RAID levels 0, 0+1, 5 and 5+hot spare
- Automatic rebuilding (RAID 0+1, 5 and 5+spare)
- Hot swappable fan
- Requires no driver
- Event notification through audible alarm
- LCD panel for operation status display

## Box Content

- Biggest FW800 with 4 SATA hard disks in drawers
- Power cable
- FireWire 800 cable
- FireWire 400-to-800 cable
- Hi-Speed USB 2.0 cable
- Quick Install Guide
- User Manual and Utilities CD-ROM
- 2 keys for disk drawers' locks

## Minimum System Requirements

- Mac OS 10.2.8 or later / Windows 2000, Windows Server 2003, Windows XP

### LaCie Biggest FW800

Capacity*	1TB	2TB
Item Number	301163	301164
Host Interface	FireWire 400/800 and Hi-Speed USB 2.0	
Disk Interface	4 bays: 250GB (SATA drives)	4 bays: 500GB (SATA drives)
Max. Sustained Transfer Rate	Read: up to 70MB/s; Write: up to 47MB/s	
Operation Temperature	0-35° C	
Humidity	Operation: 5 - 95% non condensing; Storage: 5-95% non-condensing	
Power Supply	200W	
Input	100-250V AC	
Output	+5V/10 A, +12V/10 A, +3.3V/5A	
Certification	FCC, CE, UL, C-TICK and PSE Mark approval	
Dimensions	6.02 x 8.13 x 10.57 in. / 152.8 x 206.4 x 268.5 mm	
Weight	25.3 lbs. / 11.5 Kg	
Warranty	US: 2 years limited / Europe: 2 years (1 year swap, 1 year repair) / Japan: 1 year limited	

\* 1TB (Terabyte) = 1000GB. 1GB = 1,000,000,000 bytes. Total accessible capacity varies depending upon operating environment (typically 5-10% less). Available storage capacity also depends on the RAID level: RAID 0 = 100%, RAID 0+1 = 50%, RAID 5 = 75%, and RAID 5+spare = 50%.
