

LaCie electron 19blue IV

LaCie blue eye vision calibrator

Precise color with maximum brightness

- New super bright mode
- Improved image sharpness
- State-of-the-art color accuracy

user benefits

- Cross-platform connection to Macs and PCs
- Large viewable area
- Color-enhancing blue hood
- Glare-reducing blue casing
- Maximum resolution for superior picture quality

applications

- Web design
- Image editing
- Graphic arts production
- Pre-press environments
- Print and electronic publishing

features

- Super-bright mode for gaming and video applications
- Flat aperture grill technology for minimized eyestrain
- Optional LaCie blue eye vision hardware calibrator provides precise color correction
- Wide viewing angle technology for viewing accurate color from virtually any angle without image distortion
- On-screen controls for fast and easy adjustment
- Four-port USB hub (one upstream port, three downstream ports) on side of monitor for easy connection of USB devices (electron22blueIV)
